**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 112***

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-8 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Regarding claims 1 and 6-8, the claimed subject matter "combined fashion" renders the claims indefinite. How does the data packet transmitted in combined fashion. Is the data packet split into two and transmitted over a first and second frequency channel simultaneously or at different interval. Appropriate correction required.

### ***Claim Rejections - 35 USC § 102***

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

4. Claims 1-4 and 6-9 are rejected under 35 U.S.C. 102(b) as being anticipated by Kobayashi et al. (5,561,686).

As per claims 1 and 6-9, Kobayashi et al. disclosed a method of data transmission between a base station and a mobile station, wherein the data to be transmitted between the base station and the mobile station are transmitted in combined fashion over a first frequency channel and at least a second frequency channel (fig. 5, fig. 9, col. 2/ln. 7-36).

As per claim 2, Kobayashi et al. disclosed data to be transmitted are transmitted over the at least two frequency channels in packets provided with an address coding value, as a result of which the data can be combined again at some later time (fig. 5, fig. 9, col. 2/ln. 7-36).

As per claim 3, Kobayashi et al. disclosed the mobile radio system is a PCN system (fig. 1).

As per claim 4, Kobayashi et al. disclosed the data transmission takes place simultaneously over the first and the second frequency channel (fig. 5, fig. 9, col. 2/ln. 7-36).

#### ***Allowable Subject Matter***

5. Claim 5 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
